This permit shall be cancelled if work described is not commenced within three (3) months.

All projects in Flood Zone A or B will require an elevation certificate, and all building permit applications shall detail the existing preconstruction natural and man-made drainage features located on the parcel in question. This application shall also detail all proposed drainage and site improvement. (Ord. No. 2008-33, 9-23-08)

The issuance of this permit does not verify if the property to which this building permit applies is subject to a wetlands determination or permit from the U.S. Army Corps of Engineers.

All commercial projects need Fire Marshal Approval, Department of Health Approval, Parking Plans, Landscaping Plans and Drainage Plans (unless only an interior renovation).

NO EXCEPTIONS

All commercial and residential job sites must have a concrete containment site.

I hereby certify that I have read and examined this application and know the information to be true and correct. All provisions of laws and ordinances governing this type of work will be complied with. The granting of a permit does not presume to give authority to violate or cancel the provisions of any other state or local law regulating construction or the performance of construction.
